ROAR STREET JOURNAL

The Classification of Everything

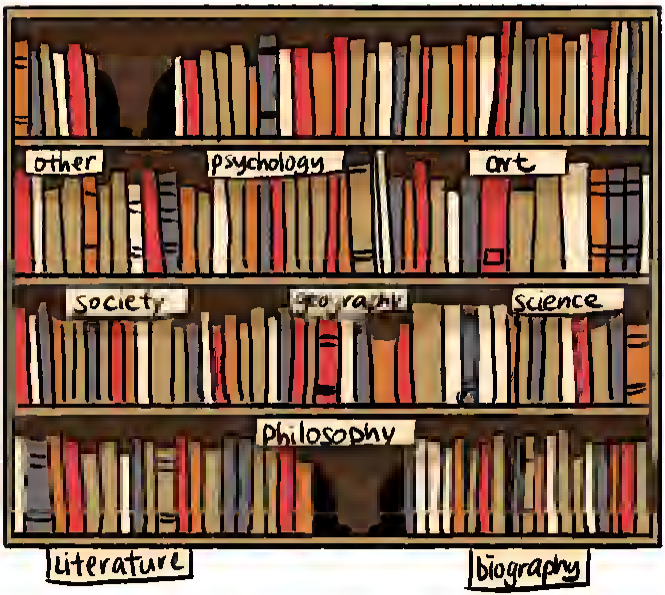
We love putting things into categories.

It's often said that the world is a chaotic place full of uncertainty.

And we like to create order in it...

...so that we feel a sense of control.

Classified by genre

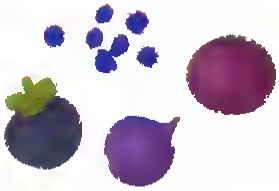


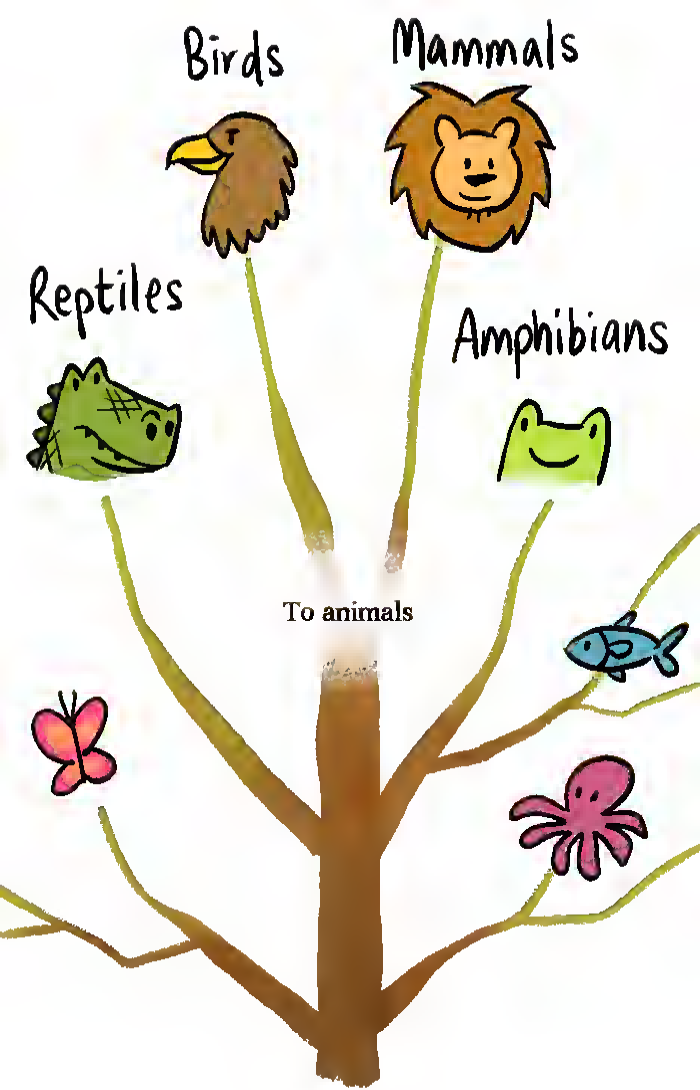
Classified by color

Classified by time

We just love to classifiy everything in life.

From colors





Birds
Mammals
Reptiles
Amphibians
To animals

Personalities

Races

Anything and everything we can think of.

THERE ARE TWO KINDS OF PEOPLE
IN THIS WORLD

Perhaps we classify everything

because we don't want to be lonely.

SEA OF LIFE

In the chaotic sea of life,

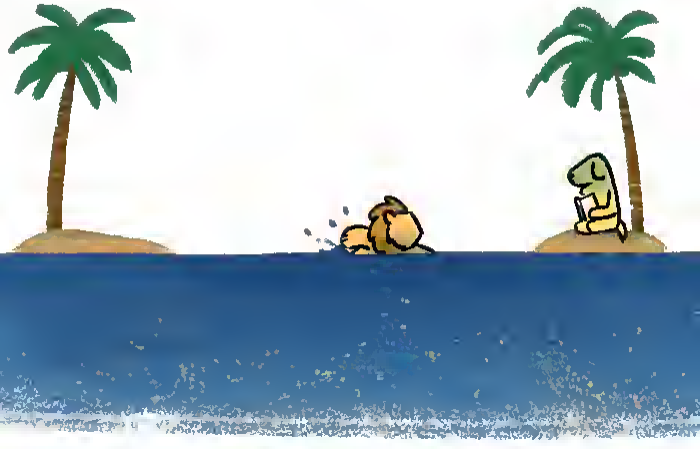
we are like individual islands.

We want to have a place to belong and feel safe.

HELLO

To be understood

To have companions



The fact is no two person are the same in this world,

but that doesn't necessarily makes us lonely.

Beauty lies in enjoying the uniqueness of ourselves while discovering the similarities with others.

Hello Bonnie! I am from Cyprus and our national animal is the mouflon

Readers from Cyprus!

The Cypriot mouflon is only found on the island of Cyprus. They were once near extinction due to over hunting, but their numbers increased over the years. The mouflon is featured on the Cyprus Airways, Cypriot euro coins and the Cyprus national rugby team!
